ellis AI: Enhanced Learning Loop & Insights System

ELLIS is the AI marking assistant designed to enhance teacher expertise, not replace it. By combining artificial intelligence with teacher-led criteria and human oversight, ELLIS transforms assessment from a time-consuming task into an opportunity for deeper student insights.

Key Features

HUMAN-IN-THE-LOOP ASSURANCE

Review and approve every grade and piece of feedback before it reaches students. You're always in control.

INTELLIGENT INSIGHTS

Transform marking data into actionable insights for differentiation, intervention, and reporting.

STUDENT PROGRESS TRACKING

Students gain access to their own learning insights, fostering metacognition and self-directed improvement.

TEACHER-LED CRITERIA

You set the success criteria, ELLIS follows them precisely. Every assessment reflects your professional judgement and standards.

SUBJECT-AGNOSTIC DESIGN

From creative writing to mathematical proofs, ELLIS adapts to assess work across all subjects and key stages.

SEAMLESS INTEGRATION

ELLIS syncs with your school's MIS, making implementation smooth and data management simple.

What can ELLIS do?

Core Marking Features:

- Generates comprehensive insights on individual student progress
- Identifies class-wide patterns and learning gaps
- Suggests personalized consolidation and stretch tasks
- Writes detailed school reports using accumulated marking data
- Provides students with insights into their own learning journey

Beyond Marking:

- Assesses any type of student work against teacher-defined success criteria
- Provides detailed, constructive feedback that teachers can review and refine
- Maintains consistency across large numbers of assignments
- Adapts to your school's specific marking policies and standards

The ELLIS Workflow

01

Teacher sets success criteria for the assignment

02

Students submit work through the ELLIS portal

03

ELLIS analyses submissions against the criteria

04

Teacher reviews suggested grades and feedback

05

Insights generated for intervention and extension

06

School reports created using accumulated data

Transforming Assessment In Schools

For Teachers: "ELLIS doesn't replace my professional judgment – it amplifies it. I set the criteria, review the feedback, and spend my time on what matters: understanding my students' needs and planning next steps."

For Students: "Seeing insights about my own progress helps me understand where I'm doing well and what I need to work on. The feedback is detailed and actually helps me improve."

For School Leaders: "ELLIS provides consistency across departments while respecting teacher autonomy. Report writing that used to take weeks now takes hours, with richer detail than ever before."

Exclusive Professional Development

Schools subscribing to ELLIS receive comprehensive training on:

- Crafting effective success criteria for AI-assisted marking
- Using insights for differentiation and intervention
- Maximizing the report-writing features
- Helping students engage with their learning insights
